

Can Apple cider vinegar Cure Gout In The Foot? Get the Answer Here

Before discussing if apple cider vinegar can cure **gout** in the foot or not, we really need to get a good understanding of what causes gout in the first place...

All begins with having higher-than-normal levels of **uric acid** in your body. Under these conditions -- known as hyperuricemia -- microscopic needle-like crystals can form and be deposited in your joints, for instance gout your foot.

There are two main reasons exactly why you might have excessive **uric acid** and those are; your kidneys aren't working from full potential and so can't process and excrete the normal levels of acid your body produces, or, your body is producing too much for your normally healthy kidneys to deal with.

- Whichever the reason, and it can be both working at the same time, you end up with excess uric acid in your blood.
- So you have to reduce this excess if you are to cure your gout in the foot.

“ There are many **gout remedies** out there, which includes drug-based drugs, but here we are looking at using apple cider vinegar...

Apple cider vinegar has been used straight down

the years for all manner of afflictions, including gout, as well as has proved to be pretty effective.

Terms of gout, it is believed that, when drunk, apple cider vinegar changes your blood pH in a way that helps to alleviate high uric acid blood levels. But it is also being used to treat the swelling and distressing pain of gout, when applied directly to the affected area, e.g. gout in the foot.

- But, in order to be effective, it should be raw, un-distilled, unpasteurized apple cider vinegar.
- The kind that has a sediment in the bottom of the bottle, called the 'mother.'

Apple Cider Vinegar as a Drink to Treat Gout in the Foot

For drinking, all you need to do is mix 2 to 3 teaspoons of vinegar into a large glass of water and also stir thoroughly. Drink a glass 3 times per day. I can drink it no problem, but if you can't abide the taste, just add a little honey.

“

How Much Water to Drink to Decrease Uric Acid? This is a question I get asked a lot. And the answer is plenty. I would say drink at least 3 to 4 litres of water every day...If this seems like a lot then it s supposed to be. Nonetheless it isn t as much trouble as you think if you drink...

Apple Cider Vinegar to Reduce Swelling and **Relieve Gout Pain**

- You use this as a soak.
- Simply make up a mixture in the ratio of 1/2 cup of vinegar to 3 cups of hot water.
- If you need more, then use 1 cup vinegar to 6 cups of hot water.
- Soak your base for around 30 minutes.

GoutUric AcidUricGout RemediesNatural Gout RemediesRelieve

- Reheat the mixture if you need to and repeat.
- Remember not to utilize boiling water.
- And test the temperature before you put your foot in.
- Many gout sufferers have had success with this home remedy for gout.
- But whilst it can be effective, there are lots of other organic gout remedies that you can use.
- So get to know them in case apple cider vinegar just does not work properly for you.

But, to have the best possible chance of a gout cure, you need to understand a whole lot of some other issues that can help to cause gout; for example, your diet, your weight, lifestyle, medications, underlying medical conditions, genealogy and family history, etc.

And getting rid of gout permanently is very important because repeat **gout attacks** over an extended period can leave you with kidney difficulties and permanent joint damage. Plus, once getting suffered your first attack, you're right now very much more likely to suffer even more.

So, to be able to know how to prevent recurring gout from damaging your health, please go now to www.thegoutsite.com.
